REASONS FOR ALLOWANCE AND EXAMINER'S AMENDMENT

1. This action is responsive to communications: The Amendment filed on 02/27/06.
2. Claims 5-9, 11-17, 22, and 24-27 are pending in this case. Claims 11 and 24 are independent claims.
3. All previous rejection to claims 5-9, 11-17, 22, and 24-27 have been withdrawn as necessitated by Amendment.
4. Claims 5-9, 11-17, 22, and 24-27 are allowed as necessitated by Examiner's Amendment and discussed below in the Reasons for Allowance section.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The Application has been amended as follows:

Please Replace the Abstract of the Application with the following:

ABSTRACT

The present invention is directed to a method for a creating an active document that encapsulates a transaction and the transaction's current status. The active document includes a first set of data fields, where the data fields represent attributes of a parent transaction and

Art Unit: 2178

include a sub-identifier field; and a first set of metadata, where the first set of metadata populates the first set of data fields and describes the attributes represented by the first set of data fields, the sub-identifier field including metadata from the first set of metadata that identifies a secondary transaction, linking data generated by the secondary transaction to the active document.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

Regarding amended independent claims 11 and 24, none of the references, either singularly or in combination, teach or suggest to a person of ordinary skill in the art at the time of the invention the previous claim limitations in view of the newly amended claim limitations. The examiner notes that dynamically updating a plurality of transaction resources is not a novel feature (See Examiner Referenced Prior Art), but in combination with the amended features (i.e. populating the first set of data fields with: linking data generated by the secondary transaction resources; metadata including an identifier that identifies the parent transaction; metadata including permissions that identify client computers permitted to access the parent transaction resource; and resource handler metadata which identifies a resource handler that physically access the parent transaction from the core) of the method steps of the independent claims the limitations of claims 1 and 24 are considered novel, and unobvious to a person of ordinary skill in the art at the time the invention was made in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
